THOR

Disposable glove, THOR Power Grip, S, black, nitrile, powder-free

- ✓ THOR Power Grip ensures excellent protection and comfort
- ✓ The nitrile glove is ideal for areas exposed to chemicals
- ✓ Diamond textured surface significantly improves grip
- ✓ Perfect for the food, automotive and cleaning sectors

Product Description

Protect your hands effectively with the THOR Power Grip disposable gloves from ABENA. These nitrile gloves are ideal for use in demanding environments such as the food industry, the automotive industry and the cleaning sector. The thickness of the glove protects against chemical splashes without compromising on sensitivity, and the diamond-textured surface ensures a good grip.

Specifications

Base name	Disposable glove
Brand	THOR
Sub-Brand	Power Grip
Size	S
Color	Black
Properties	Rolled cuff
Features	Powder-free
Single or multiple use	Single use
Material	Nitrile
Length/depth	240 mm
Width	85 mm
Weight, net	5.7 g
Thickness	Min. 0,15 mm
Certificates	CE. Food contact materials. CAT III.
CE Category (Personal Protective Equipment)	CAT III
Product or test standards	EN ISO 374-1:2016 Type B KPT, EN 374-4:2013, EN 374-5:2016, AQL 1.5, EN 16523, EN 374-2, EN 420
Directives, regulations and acts	(EC) No 1935/2004, (EC) No 2023/2006, (EU) 2016/425, BEK nr 681 af 25/05/2020
Shelf Life	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.
Packaging Disposal Instructions	Can be recycled or incinerated.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for *Conformité Européenne* (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. CAT III products will be accompanied by a notified body number for the 3rd party verification of the product’s safety.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a high grip.

The glove is 240 mm long.

The standard specifies the requirements for protective gloves against chemicals and microorganisms. Type B has been tested for a permeation time of at least 30 minutes with the chemicals sodium hydroxide 40%, hydrogen peroxide 30% and formaldehyde 37%.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove’s resistance to bacteria and fungi, but to viruses.

The standard specifies a method for testing gloves to determine whether the glove provides resistance to the permeation of chemicals and/or microorganisms. The test consists of an air and water test to identify leaks in the glove. They follow the ISO 2859 sampling plan. Not all gloves can be tested with air. In this case a water test is used.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.
