Closing the loop with the world's first recycling service for paper hand towels

Tork PaperCircle is a complete solution to reduce your waste, **showing your dedication to sustainability** to your employees and visitors.

How Tork PaperCircle® works

Our dedicated team supports you throughout setup, implementation and ongoing use to ensure your transition to a circular economy is smooth and efficient.

Your visitors and employees use the restrooms as usual, but throw their paper hand towel in a separate bin after drying their hands.

Cleaners empty the bins as usual but keep the hand towels separate on the trolley.

Our recycling partner collects the paper hand towels and brings them to the local Essity mill.

The Essity mill recycles the paper hand towels into new tissue products.

Your used paper hand towels are put back into the loop as new tissue products.

Microfibr

Microfibrs are very fine so that they have a lot of surface area, which increases the absorbency. Gaps between split fibrs in our Microfibr cloths create pockets, which easily pick up dirt and dust and are also fine enough to pick up microbes. When woven together into a textile cloth, microfibrs create a cloth with excellent and efficient cleaning properties.

Making it easy to create a great experience

It's not enough just to provide satisfactory service – you need to create a great experience to keep reviews positive and customers coming through the door. When doing this, we know the details matter, and we can help you get them right.

Product ranges to meet different needs

Self-service with napkin dispensing systems

When customers dispense their own napkins, refilling, waste management and storage need to be effortless, easy and convenient.

Full-service with single-serve napkins and tableware

The quality feel of your table setting is one of many important things that creates a restaurant's ambiance.

Match your dish with the perfect color

Did you know that colors can have an important impact not only on how guests perceive a restaurant, but also on how they experience the taste and aroma of a dish? Pairing your food with the right color is a great opportunity to bring every course to life, ultimately improving the entire guest experience.

To help our customers create unique dining experiences, we teamed up with food stylist and chef Linda Lundgren, whose clients range from high-end restaurants to the international food industry and gastronomic magazines.

Use our colour wheel, based on our Tork LinStyle napkin range for inspiration on how to use colours to enhance flavours and fulfil the potential of every plate you create.
